PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering graduate with knowledge of Python, JavaScript, React.js, Node.js, SQL, and web development. Experienced in developing academic and personal projects using modern technologies. Seeking an entry-level Software Developer / Python Full Stack Developer opportunity.

TECHNICAL SKILLS

Programming: Python, JavaScript,
Frontend: HTML, CSS, JavaScript, React.js
Backend: Python, Django, Flask, Node.js, REST API
Database: PostgreSQL, MySQL
Tools: Git, GitHub, VS Code

PROJECTS

RAM AI – Hindi Voice Controlled Desktop Assistant

Technologies: Python, Speech Recognition, OpenAI API, OS

- Developed a voice-controlled desktop assistant capable of understanding Hindi voice commands.
- Implemented speech-to-text processing and command routing for executing user instructions.
- Integrated web browsing, application launching, music playback, and other desktop operations..

Student Study Recommendation System

Technologies: Python, TensorFlow, Keras, Machine Learning

- Developed a machine learning model to provide study recommendations based on student data.
- Used attendance, previous marks, sleep hours, screen time, and pending assignments as inputs.
- Trained a neural-network-based model to generate recommendations.

EDUCATION

Bachelor of Engineering – Computer Engineering

ICEEM COLLAGE WALUJ, CHH.SAMBHAJINAGAR | 2022 – 2026 | CGPA/Percentage: 6.69

Diploma in Computer Engineering

GOVERNMENT POLYTECHNIC, HINGOLI | 2020 – 2022 | Percentage: 74.23

CERTIFICATIONS

- Introduction to Retrieval-Augmented Generation (RAG) – IBM SkillsBuild
- Ethical Considerations for Generative AI – IBM SkillsBuild
- TCS carrer edge /TCS ION YUVA AI for All
- Hashgraph developer.

STRENGTHS

Problem Solving • Quick Learner • Team Collaboration • Communication • Adaptability
